Yang

### Agenda

[Time allocated] about 30 minutes

<b>Announcements</b>	1. [slides #1~4] AIS website updates and new features. 2. [slides #5~8] ICIS 2025 meeting summaries (Nashville, Tennessee, USA). 3. [slide #9] TSWIM 2026 will be held at Tsing-Hua University, Hsinchu, Taiwan.
<b>12:10 ~ 12:40</b>	1. The TWAIS official website (link to <a href="https://twais.johogo.com/">https://twais.johogo.com/</a> ) has recently been updated. The administrator's contact email has also been changed to <a href="mailto:TaiwanAIS2009@gmail.com">TaiwanAIS2009@gmail.com</a> . After the migrating policy to the new AIS website, offering free hosting, no maintenance fees, and support from AIS staff, has been publicly announced, and the detailed procedure has been ensured, we may consider applying for government funding and hiring a part-time web developer to rewrite the site code. This will improve the management of interactive pages and remove outdated static content. After migration, global AIS members will be able to easily review the updated content and the previous ones posted on the TWAIS site. 2. TWAIS members are encouraged to become long-term AIS members (renewed every four years) to gain easy access to the AIS e-library, where the Scholarly Research Collections and the Teaching & Member Collections are available for free download. ICIS 2025 was held in Nashville, USA. Among the 480 accepted papers, five were authored by Taiwanese scholars. Secretary P. H. Hsieh uploaded a PPT slide, introducing the TWAIS activities in 2025, to be demonstrated at ICIS 2025. 3. Quality review for papers submitted to TSWIM 2026 can be expected. TSWIM aims

	<p>to create more opportunities for Taiwanese scholars to gain international exposure and publish in high-quality journals. The invitation of prestigious international scholars is strongly encouraged by the NSTC as well. The front page of the TSWIM 2026 website will include “IM Research Workshop for NSTC Management II,” consisting of one to two sessions (reference website: <a href="https://tswim2025.cgu.edu.tw/">https://tswim2025.cgu.edu.tw/</a>). The NSTC grant has been approved, and all related efforts are proceeding smoothly with advice and support from many MIS scholars, which is greatly appreciated. The end-of-year Annual Research Forum for NSTC Management II will continue to be held in 2026. Regardless of whether the TSWIM Research Workshop receives additional NSTC funding (which is not guaranteed annually), TSWIM will continue to host “IM Research Workshop for NSTC Management II”. A future discussion with the newly-appointed Director of NSTC Management II is needed regarding whether the TSWIM Research Workshop may again be held jointly with the NSTC.</p>
